

2nd National Conference on Clean Energy and Climate Change (Hybrid Mode)

15-16th April, 2027

Theme: Advancing Clean Energy Solutions
for Climate-Resilient and Sustainable
Development in Sub-Saharan Africa

Research findings from researchers in third-world countries and up on the shelf. Only very few findings from third-world countries made it to the limelight via personal efforts, which are uncommon in academia. Due to no access to the findings on the shelves, national policymakers, industries and governments have continually relied on globalized findings. Unfortunately, when it comes to clean energy and climate change, the localized findings are more realistic for policymakers, industries and governments. The mandate of this conference is to gather the localized findings and communicate them to stakeholders in order to foster a more inclusive approach to bridging the gap between local knowledge and global practices, ultimately leading to more sustainable and effective solutions.

Sub-Themes

- *Clean Energy Technologies and Innovation
- *Climate Change Mitigation and Adaptation Strategies
- *Energy Policy, Governance, and Regulation
- *Sustainable Power Systems and Energy Efficiency
- *Environmental Impacts, Health, and Society
- *Financing, Investment, and Entrepreneurship
- *Regional and Local Perspectives on Climate Action

Nov. 15, 2026 **First round of abstracts submission**

Feb. 28, 2027 **Notification of abstract acceptance**

Mar. 01, 2027 **Second round of abstracts submission**

Mar. 20, 2027 **Notification of abstract acceptance**

Call for Abstract

The conference welcomes paper submissions from researchers, practitioners, academics, and students. The conference will only accept original and previously unpublished work on a range of topics related to the subtheme. The conference organizer reserves the right to reject papers that do not meet the required standards or fail outside the specified scope. Authors will be notified of the acceptance decision by the end of the submission review period, and feedback will be provided to support publishing the paper after the conference.
